

	Common disease		Functional genomics (common disease)			Rare mendelian							Somatic				NA	
Xenon Xe 129 hyperpolarized																	No human target	
Vonoprazan; amoxicillin; clarithromycin																		
Sodium phenylbutyrate; taurursodiol																		
Oteseconazole																		
Lenacapavir																		
Gadopiclenol																		
Anacaulase																		
Tremelimumab														•			Oncology	
Teclistamab		•												•				•
Tebentafusp																		
Relatlimab; nivolumab		○											•	•		•		
Pacritinib							⊙								⊙			⊙
Olutasidenib							⊙						⊙	⊙	⊙	⊙		
Mosunetuzumab																		
Mirvetuximab soravtansine		•			•									•				
Lutetium Lu-177 vipivotide tetraxetan		⊙	•				•						•	•	•	•		
Futibatinib													⊙			⊙		
Adagrasib			•	⊙	⊙			•			•		⊙	⊙	⊙	⊙		⊙
Vutrisiran							⊙	⊙		⊙	⊙	⊙			⊙			
Ublituximab																		
Tirzepatide		⊙															⊙	
Terlipressin														•				
Teplizumab		•																
Tapinarof		⊙																
Sutimlimab																		
Spesolimab																		
Omidenepag isopropyl																		
Olipudase alfa							⊙	⊙	⊙	⊙	⊙	⊙	⊙				⊙	
Mitapivat							⊙										⊙	
Mavacamten	⊙						⊙	⊙	⊙	⊙	⊙	⊙	⊙		•		⊙	
Ganaxolone							⊙	⊙	⊙									
Faricimab		⊙															•	
Eflapegrastim																		
Deucravacitinib		⊙																
DaxibotulinumtoxinA																		
Daridorexant		⊙																
Abrocitinib																	•
